The program's normative framework
takes precedence over this leaflet.
Organization authorized to offer the Éconologis service:

In energy efficiency, every little thing counts!

Québec's energy transition is everyone's business. You don't need to invest a lot of time and money, nor undertake major renovation work, to make quick gains in efficiency. The combined effect of all our actions, as small as they might be, generates impressive results on a community scale.

Éconologis

The Éconologis program provides free help for modest income households to improve energy efficiency and comfort levels in their homes, whether they are tenants or owners.

4 reasons to participate

- › Home consultation with an advisor who could help you manage your energy consumption
- › Light work that we could do for you (caulking and insulation)
- › Improved home comfort
- › Fewer draughts

Period

The program is offered from October to March.

Component 1

Receive a visit by an advisor and obtain practical advice about:

- › Heating
- › Hot water
- › Household appliances
- › Lighting

Take advantage of some of the following measures based on the needs identified by an advisor:

- › Caulking and weatherstripping windows
- › Installing weatherstripping on doors
- › Insulating electrical outlets on outside walls
- › Installing low-flow showerheads
- › Installing aerators on water taps

Component 2

Receive a visit from a specialist who will replace old thermostats with electronic thermostats to improve your comfort¹.

Eligibility criteria²

For component 1:

- › Meet the income threshold

For component 2:

- › Have been visited by an advisor as part of Component 1
- › Receive a bill for home heating from an energy distributor
- › Obtain permission from the landlord
